ESTIMATED RESIDENTIAL CONSTRUCTION FEES

Single Family Dwellings and (Duplexes)

When requesting estimated fees for residential construction, the fees are determined by each department based on the project. Residential construction fees include much more than just building department permit fee. The information provided below is an attempt to provide you with an understanding of the estimated costs associated with residential construction fees. Fees are determined by valuation¹ and location².

Estimated City Department Fees to consider are:

Electrical Permit Fee: See State of Idaho Building and Safety 800-955-3044
 1250 Ironwood Suite 220, Coeur d'Alene ID 83814

Special conditions may exist on the property which would require additional information and could include additional project costs. For example, if your property is located in a flood plain or slopes/hillsides, then you may be required to provide an erosion control bond, engineered footings and foundation, geotechnical report, elevation certificate or landscape bond. For more information, please contact Building Services at (208) 769-2267.

¹ Valuation shall include structural, electrical, plumbing, mechanical, interior finish, normal site preparation, architectural and design fees, overhead and profit.

² Currently Impact Fees are defined by the properties location within the City.
