INDEPENDENT AUDITOR’S REPORT
INDEPENDENT AUDITOR’S REPORT

To the Honorable Mayor and City Council
City of Coeur d’Alene
Coeur d’Alene, Idaho 83814

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Coeur d’Alene, Idaho as of and for the year ended September 30, 2014, and the related notes to the financial statements, which collectively comprise the City’s basic financial statements as listed in the table of contents.

Management’s Responsibility for the Financial Statements

The City of Coeur d’Alene’s management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Coeur d’Alene, Idaho, as of September 30, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.
INDEPENDENT AUDITORS’ REPORT (CONTINUED)

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 through 12, and 66 - 67, the Police Retirement Trust Fund information on pages 68 - 69, and the Schedule of Funding Progress for Postemployment Benefit Plan on page 70, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Coeur d'Alene, Idaho’s basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for the purpose of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated March 4, 2015, on our consideration of the City of Coeur d'Alene, Idaho's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City of Coeur d'Alene’s internal control over financial reporting and compliance.

MANAGEMENT’S DISCUSSION AND ANALYSIS
As management of the City of Coeur d’Alene, Idaho (the “City”), we have provided readers of the City’s financial statements with this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2014.

FINANCIAL HIGHLIGHTS

- The assets of the City exceeded its liabilities at the close of the most recent fiscal year by $305,834,031 (net position). Of this amount, $23,056,463 (unrestricted net position) may be used to meet the City’s ongoing obligations to citizens and creditors.

- The City’s total net position increased $10,689,736. This increase is made up of a 7.66% increase in the business activities and a decrease of 0.42% in the governmental activities.

- At the end of the fiscal year, the City’s governmental funds reported combined ending fund balances of $13,941,349 an increase of $1,742,062 in comparison with the prior year.

- Also, at the end of the fiscal year, unassigned fund balance for the General Fund was $6,142,590, or 18.46% of the amended 2014 budget of general fund expenditures.

- The City’s total debt increased by $6,391,798 during fiscal year 2013-2014, due to the wastewater treatment facility expansion and upgrades.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City’s basic financial statements. The City’s basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplemental information in addition to the basic financial statements themselves.

Government-Wide Financial Statements – The government-wide financial statements are designed to provide readers with a broad overview of the City’s finances, in a manner similar to private sector businesses.

The *Statement of Net Position* presents information on all of the City’s assets and liabilities, with the difference between the two reported as total net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *Statement of Activities* presents information showing how the City’s net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (i.e. uncollected taxes and earned, but unused, vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenue (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, public works, culture and recreation and interest on long-term debt. The business-type activities of the City include water, wastewater, sanitation, drainage, street lighting and public parking.

The government-wide financial statements include not only the City itself (known as the primary government), but a legally separate urban renewal district, Lake City Development Corporation (LCDC), for which the City is financially accountable. LCDC has been reported as a discreetly presented component unit and does prepare separate financial statements.
OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

**Fund Financial Statement** – A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

**Governmental Funds** – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government’s near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact by the government’s near-term financing decisions. Both the governmental fund Balance Sheet and governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains 26 individual governmental funds. Information is presented separately in the governmental Fund Balance sheet and in the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances for the General Fund, the Insurance Special Revenue Fund and the General Obligation Bonds Debt Service which are considered to be major funds. Data from the other 23 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements or schedules elsewhere in this report.

The City adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

**Proprietary Funds** – The City maintains one type of proprietary fund which is an enterprise fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for water, wastewater, drainage, solid waste, public parking and street lighting operations.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for each of the enterprise funds which are considered to be major funds of the City.

**Fiduciary Funds** – Fiduciary funds are used to account for resources held for the benefit of parties outside the City. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

**Notes to the Financial Statements** – The notes to basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Other Information** – Combining and individual fund statements and schedules for nonmajor funds are presented immediately following the notes to basic financial statements.
OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Net positions – The City has 91.08% of its total net positions invested in capital assets (land, buildings, infrastructure, machinery and equipment, and vehicles) less any related debt to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although, the City’s investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional 1.37% of the City’s net positions represent resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position (7.55%) may be used to meet the City’s ongoing obligations to citizens and creditors.

A summary of the City’s net position follows:

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Major changes in governmental activities were as follows:

Governmental activities increased the City's net positions by $791,053, which impacted the City's Governmental net position by approximately 0.57%. This decrease is primarily the result of a prior period adjustment that moved donated assets from the prior year for the McEuen Park / parking structure project from construction in progress in the parks capital improvements fund to other improvements in the parking fund, a proprietary fund.

Governmental Activities:

The following graph depicts various governmental activities and shows the expenses and program revenues directly related to those activities.

![Expenses and Program Revenues – Government Activities Chart]
OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Revenues by Source – Governmental Activities

Business-Type Activities – Business-type activities increased the City’s net positions by $9,898,683, which impacted the City’s business-type net positions by 6.33%. This increase was primarily the result of contributed capital from the Lake City Development Corporation for the construction of a parking garage at McEuen Park and a prior period adjustment to adjust donated assets from the prior fiscal year from the parks capital improvements fund to the parking fund. An increase of $1,953,454 in capitalization fee revenue in the Water and Wastewater Funds also was a significant contributor to this increase.

OVERVIEW OF THE FINANCIAL STATEMENTS (CONCLUDED)

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds** – The focus of the City’s governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City’s financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government’s net resources available for spending at the end of the fiscal year.

At the end of the fiscal year, the City’s governmental funds reported combined ending fund balances of $13,941,349 an increase of $1,742,062 in comparison with the prior year. Of the $13,941,349 fund balance $5,973,879 is unassigned fund balance, which is available for spending at the City’s discretion. The remainder of fund balance is restricted, committed or assigned to indicate that it is not available for new spending because it has already been committed to pay debt service, insurance claims, future park, fire, police and street projects, and perpetual care of cemeteries.

The General Fund is the chief operating fund of the City. At the end of the current year, the fund balance of the General Fund was $6,710,632. As a measure of the General Fund’s liquidity, it may be useful to compare total fund balance to total budgeted expenditures. Fund balance represents 20.30% of 2014 budgeted expenditures and the unassigned fund balance of $6,142,590 represents 18.59% of 2014 budgeted expenditures. Although the General Fund balance appears to be adequate, it must be stressed that the balance is needed to support operations until funds are received in January 2015 from the first current-year property tax settlement.

General Fund cash balance was increased by $587,187. Revenues were $577,502 higher than budgeted and expenses were $1,034,614 lower than budgeted. Revenues increased $221,247 from the previous year and expenses increased $985,291. Transfers out increased by $615,648 and transfers in decreased by $25,495.

The fund balance of the City’s General Fund increased $221,414. This slight increase was due to other financing sources being higher than the deficiency of revenues over expenditures.

The Insurance Fund Special Revenue Fund had a fund balance deficit of $54,894 at September 30, 2014 which is $290,202 reduction in the fund balance deficit of $345,096 in the last fiscal year. This reduction in this fund balance deficit can be attributed to an operating transfer in from the General Fund of $678,909.

The General Obligation Bonds Debt Service Fund has a total fund balance of $482,559 all of which is designated to pay future debt service payments on the City’s General Obligation Bonds.

**Proprietary Funds** – The City’s Proprietary Funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the enterprise funds at the end of the year amounted to $17,218,170. The total increase in net positions for the funds was $9,898,683. This increase was primarily the result of an increase in building activity which increased the revenues received in the Water and Wastewater Funds for capitalization fees and increased infrastructure received from developer’s contributions. Also an increase in contributed capital occurred in the Parking Fund from Lake City Development Corporation for the parking structure at McEuen Park.
GENERAL FUND BUDGET HIGHLIGHTS

The City’s General Fund budget was amended during the fiscal year. The amendment increased the General Fund budget before transfers out by $1,445,222. The largest amendment was for $1,205,953 to the overlay budget in Engineering to account for the Front Street Project that was budgeted in fiscal year 2012-13, however it was finished in fiscal year 2013-14 (two year project).

The budget amendment included the use of $1,667,475 of General Fund Balance but in actuality the fund balance was increased by $221,414 due to operating transfers in for the year of $1,669,958. Actual revenues were 3.16% higher than the City’s original budget and actual expenditures were 1.29% higher than the City’s original budget.

Overall expenditures before transfers were $1,034,614 under the final amended budget and $410,608 over the original budget. Overall revenues before transfers were $577,502 over the final amended budget of $30,569,734 and $955,249 over the original budget of $30,191,987.

CAPITAL ASSETS

The City’s investment in capital assets (net of accumulated depreciation) for its governmental and business-type activities as of September 30, 2014, amounts to $313,955,796. This investment in capital assets includes land, buildings, infrastructure, construction in progress, machinery and equipment and vehicles. This balance represents a net increase of $13,562,929 from the prior year. Additional details of capital asset activity for the year can be found in Note 5 of the notes to basic financial statements.

The majority of the increase in the capital assets can be attributed to the expansion and upgrade of the City’s wastewater treatment facility.

LONG-TERM DEBT

The City’s long-term bonded debt decreased by $2,676,343 in 2014; leaving a balance of $26,058,094 at year-end. Additional details of long-term debt activity for the year can be found in Note 6 in the notes to basic financial statements.

In 2006 Moody’s Investor Service assigned a rating of A1 to the City of Coeur d’Alene, General Obligation Funding and Refunding Bonds, Series 2006 in the amount of $9.5 million. At that time, Moody’s also assigned an A1 rating to the City’s outstanding general obligation debt in the approximate amount of $3.2 million. The bonds are secured by the full faith, credit and unlimited tax pledge of the City. The A1 rating primarily reflected the City’s moderately sized but rapidly growing tax base, favorable wealth levels, healthy financial position, strong management and modest debt burden.
LONG TERM DEBT (CONCLUDED)

On May 3, 2010, Moody’s Investors Service (“Moody’s”) changed the rating(s) on the bond issues listed in conjunction with the migration of U.S. public finance ratings to Moody’s global rating scale. The rating changes to the Issuer’s bonds are shown below:

<table>

</tbody>
</table>

State statutes limit the amount of general obligation debt a government entity may issue to 2% of assessed market value. The current debt limitation for the City is $57,552,579 which is significantly higher than the City's net outstanding general obligation debt of $2,757,038.

ECONOMIC FACTORS AND NEXT YEAR’S BUDGETS AND RATES

City Council chose not to take any of the available dollars through the 3% increase in property taxes last year. There is new single family building growth happening and the number of new construction apartment units being added has been robust. There is pressure on the City to add public safety positions in the police department and in the fire department as Fire Station IV is being planned.

The City is planning to take to the voters in May of 2015 a General Obligation bond renewal. The existing ten year bond is paying off and the public will be asked to vote on another 10 year bond to acquire needed equipment including fire trucks, rolling stock, an incident command vehicle and an office/storage building. The bond cannot be used to fund personnel.

There will be scheduled fee increases that occur in the water and wastewater funds. Any increases in other areas of the City greater than 5% will be carefully studied and brought forward to the Mayor and Council at a public hearing.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City’s finances for all those with an interest in the City’s finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the City of Coeur d’Alene, Finance Director, 710 Mullan Avenue, Coeur d’Alene, Idaho 83814.

The accompanying "Notes to the Financial Statements" are an integral part of this statement.
NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The City of Coeur d'Alene, Idaho (the "City") was incorporated in 1887. The City is governed by a Mayor and a six-member council, elected by the voters of the City. The Mayor and Council serve as the taxing authority, the contracting body, and the chief administrators of public services for the City.

The services provided by the Mayor and Council, their appointed boards, officials, department heads, division heads and each underlying department, comprise the primary government unit of the City.

The financial statements of the City of Coeur d'Alene have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The most significant of the City's accounting policies are described below:

The accompanying financial statements include all aspects controlled by the City Council of the City of Coeur d'Alene. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

Under Idaho Code, in December 1997, the Coeur d'Alene City Council passed an ordinance which created the Coeur d'Alene Urban Renewal Agency (the "Agency"), a legally separate entity from the City. The Agency was established to promote urban development and improvement in blighted areas within the Agency's boundaries. The Agency is governed by a maximum board of nine directors, two of which may be City Council members, who are appointed by the City Council. The City Council has the ability to appoint, hire, reassign, or dismiss those persons having responsibility for the day-to-day operations of the Agency. These powers of the City meet the criteria set forth in GASB No. 61 for having financial accountability for the Agency. Based on the above, the Agency has been discretely presented in the accompanying financial statements of the City as a component unit. Separate financial statements of the component unit are issued. The Agency adopted the name Lake City Development Corporation (LCDC) in the fiscal year 2001. LCDC is the only component unit of the City.

Under Idaho Code, the Agency has the authority to issue bonds. Any bonds issued by the Agency are payable solely from the proceeds of tax increment financing (or revenue allocation in Idaho), and are not a debt of the City. The City Council is not responsible for approving the Agency budget or funding any annual deficits. The Agency controls its disbursements independent of the City Council.

The Agency operates on the same fiscal year as the City. Complete financial statements of the Agency can be obtained directly from:

Lake City Development Corporation
P.O. Box 3450
Coeur d'Alene, Idaho 83816-1379
NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Government–Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the nonfiduciary activities of the primary government and its component unit. For the most part, the effect of interfund activity has been removed from these statements.

Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment.

Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the propriety fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise fees, quarterly payments from the State of Idaho, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.
NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

The government reports the following major governmental funds:

The general fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The insurance fund special revenue fund accounts for property tax revenues levied for and transfers from other funds to meet the insurance needs of the City.

The general obligation bonds debt service fund accounts for the servicing of general obligation bonds.

The government reports the following major proprietary funds:

The water utility fund accounts for the provision of water services to individuals and commercial users. All activities necessary to provide such services are accounted for in this fund, including (but not limited to) administration, operations, maintenance and financing and related debt service.

The wastewater utility fund accounts for the provision of wastewater services to individuals and commercial users. All activities necessary to provide such services are accounted for in this fund, including (but not limited to) administration, operations, maintenance and financing and related debt service.

The sanitation utility fund accounts for the collection of solid wastes from the residents of the City. All activities necessary to provide such services are accounted for in this fund, including (but not limited to) administration, operations and maintenance.

Additionally, the government reports the following fund types:

Fiduciary fund financial statements consist of a statement of fiduciary net position and a statement of changes in fiduciary net position. Assets held by the City for other parties (either as a trustee or as an agent) and that cannot be used to finance the City's own operating programs are reported in the fiduciary funds. The City is responsible for ensuring that the activities reported in fiduciary funds are based on their intended purposes.

Fiduciary funds are presented in the fund financial statements but are not reported in the government-wide financial statements.

The City's fiduciary fund financial statements are presented on pages 23 and 24.

The pension trust fund is used to account for the payment of benefits to police officers who were hired before April 12, 1967 and to their eligible surviving spouses. Funding for these benefits comes from interest earnings and property taxes.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.
NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Measurement Focus, Basis of Accounting and Financial Statement Presentation (Concluded)

As a general rule the effect of inter-fund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes and other charges between the government’s water, wastewater and sanitation functions and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include: 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grant contributions, and 3) capital grants and contributions, including special assessments. Internally, dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund’s principal ongoing operations. The principal operating revenues of the water, wastewater and sanitation funds are charges to customers for sales and services. The water and sewer funds also recognize as operating revenue the portion of cap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Budgetary Accounting - Budgetary Basis

All City departments are required to submit their annual budget requests to the Finance Director.

The Finance Director is the budget officer, and as such, it is the Finance Director’s duty to compile and prepare a preliminary budget for consideration by the City Council. On or before the first Tuesday in August, the Finance Director submits the proposed budget to the City Council for their review and approval.

In July or August, the City Council convenes to consider the proposed budget in detail and make any alterations allowable by law and which they deem advisable, and agree upon a tentative amount to be allowed and appropriated for the ensuing fiscal year.

After the City Council agrees on tentative appropriations, the Finance Director, not later than the third Wednesday in August, publishes the tentative budget, establishing the amount proposed to be appropriated to each department, service, or activity for the ensuing fiscal year.
NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Budgetary Accounting - Budgetary Basis (Concluded)

On the first Tuesday in September, the City Council meets to hold a public hearing, at which time any taxpayer may appear and be heard upon any part or parts of the tentative budget. Upon the conclusion of the hearing, the City Council determines the amount of the budget for each department, service, or activity of the City. The combined final budget may not exceed the total of the tentative budget.

The City Council adopts the final budget by resolution, and enters the resolution on the official minutes of the Council. The adopted final budget is filed in the office of the City Clerk, and a copy, certified by the City Clerk, is filed with the County Auditor by the second Tuesday in September.

The City is required by state law to adopt annual budgets for all governmental funds. All adopted budgets for governmental funds and fiduciary funds, with the exception of the pension trust fund, are prepared in accordance with the modified accrual basis of accounting and are adopted on a basis consistent with generally accepted accounting principles (GAAP). The adopted budgets of enterprise funds, internal service funds, and the pension trust fund are prepared in accordance with the accrual basis of accounting, and are adopted on a basis consistent with generally accepted accounting principles. Annual budgets are adopted for all funds.

The annual adopted budget covers a period from October 1 to September 30 annually. The level of budgetary control at which expenditures may not exceed appropriations is the total fund level per Idaho statute. The City's department heads may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of the City Administrator. Any changes in the total budget of each fund must be approved by a majority vote of the City Council.

The City Council may only increase the total adopted budget during the year for unanticipated revenues, such as state and federal grants, donations to departments, and other unscheduled revenues. The adopted budget may be increased only by the amount of revenues received. Budget revisions must be advertised, discussed in a public hearing, and adopted through a resolution by the City Council. The budget for the fiscal year ending September 30, 2014, was amended by the amount of unscheduled revenues. The financial statements reflect the amended budget.

All appropriations lapse at the end of the fiscal year. Appropriation accounts remain open until the third Tuesday in October for the payment of claims incurred against such appropriations prior to the close of the fiscal year. After the third Tuesday in October, the appropriations, except for the incomplete improvements, become null and void. Any lawful claim presented after that day against any appropriation will be provided for in the ensuing budget. The City of Coeur d'Alene does not utilize encumbrance accounting.

Debt service for capital leases is budgeted in each of the respective lessee departments on a fiscal year basis. Each capital lease agreement has a non-appropriation clause which generally states that each fiscal year's lease payments are subject to City Council approval. The lease payment appropriations are included in the operating budget.
NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Cash and Cash Equivalents, and Investments

The City pools all individual fund cash balances in bank accounts, the State Investment Pool, and certificates of deposit, except for the investments of the police retirement fund and the cemetery perpetual care fund which are held separately from those of other City funds.

Cash equivalents are defined as investments with maturities of 90 days or less at the time they are purchased by the City. If maturity is greater than 90 days, some investments are classified as cash equivalents since they are part of the City's cash management activity, and readily convertible to known amounts of cash. Balances in checking accounts, State Pooled Investments, certificates of deposit, and U.S. Government issued investments are stated at fair value.

Due To and From Other Funds

Inter-fund receivables and payables arise from inter-fund transactions and are recorded by all funds affected in the period in which transactions are executed.

Inventory

The City had no significant inventories on September 30, 2014.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The City contracted with an independent appraisal firm to perform a complete inventory of fixed assets in September 2007. Assets were valued at estimated historical costs, when original costs were not available. The City has and will continue to update this inventory. Donated fixed assets are capitalized at fair value on the date donated. Assets valued at $5,000 or more which have a useful life of more than one year are capitalized.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.
NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets (Concluded)

Property, plant, and equipment of the primary government, as well as the component unit, are depreciated using the straight line method over the following estimated useful lives:

<table>
<thead>
<tr>
<th>Assets</th>
<th>Years</th>
</tr>
</thead>
<tbody>
<tr>
<td>Buildings</td>
<td>30-35</td>
</tr>
<tr>
<td>Equipment</td>
<td>5-25</td>

<tr>
<td>Plant</td>
<td>40</td>
</tr>
<tr>
<td>Street lights</td>
<td>20</td>
</tr>
</tbody>
</table>

Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bonds payable are reported net of applicable bond premium or discount.

Bond Discounts and Bond Premiums

In government-wide financial statements and proprietary fund types in the fund financial statements, bond premiums and discounts are deferred and amortized over the corresponding term of the bonds.

Amortization is computed on the straight-line method as follows:

<table>
<thead>
<tr>
<th>Bond premium and discounts:</th>
<th>Years</th>
</tr>
</thead>
<tbody>
<tr>
<td>2012D Sewer Revenue Refunding Bonds</td>
<td>15</td>
</tr>
</tbody>
</table>

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures and expensed in the period incurred.
NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Compensated Absences

The Government Accounting Standards Board Codification section C60 specifies that a liability should be accrued for leave benefits that meet the following conditions:

1. The employer's obligation relating to employees' rights to receive compensation for future absences is attributed to employees' services already rendered.
2. The obligation relates to rights that vest or accumulate.
3. Payment of the compensation is probable.
4. The amount can be reasonably estimated.

For governmental and proprietary funds, the City records a liability for accumulated unused vacation time when earned for all employees with more than 6 months of service. Accumulated unused comp time is recorded as a liability up to 240 hours. Accumulated unpaid sick leave in excess of 720 hours (1,440 for firefighters) is paid out to employees yearly at 33.3%. The only other time accumulated unpaid sick leave is paid by the City is upon retirement. Unpaid sick leave is recorded as a liability at 65% of all employees who have worked for the City for ten years or more.

The liability for vacation, comp time, and sick leave is recorded in the statement of net position for all governmental activities and business-type activities. In proprietary funds, compensated absences are expensed when earned. The entire amount of compensated absences is reported as a fund liability. The City has implemented GASB Statement No. 16, "Accounting for Compensated Absences" which requires the accrual to include related payroll tax and retirement costs. At September 30, 2014, the total compensated absences payable by the City was $3,331,493.

Compensated absences are reported as follows in the financial statements:

<table>
<thead>
<tr>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Governmental activities</td>
<td>$2,914,709</td>
</tr>
<tr>
<td>Business-type activities</td>
<td>416,784</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>$3,331,493</strong></td>
</tr>
</tbody>
</table>

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: property taxes and special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.
NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Equity

Governmental fund equity is classified as fund balance. Fund balance is further classified as non-spendable, restricted, committed, assigned, or unassigned.

When both restricted and unrestricted fund balances are available for use, it is the City's policy to use restricted fund balance first, then unrestricted fund balance. Furthermore, committed fund balances are reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those restricted fund balance classifications can be used.

Fund Balance Flow Assumptions

Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Net Position Flow Assumptions

Net position represents the difference between assets and liabilities. Net investment in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City’s policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

Contributed Capital

Contributed capital represents donations by developers, grants restricted for capital construction, and assets whose construction was financed by special assessments. Tap-in fees that exceed the cost of physical connection to the system are recorded as cash in the water fund and the wastewater fund until the fees are spent. Capitalization fees may be used only for expansion of the system, storm sewer separation, improvement or expansion of the present plant, or the construction of additional water and wastewater facilities. When the cash received for capitalization fees is spent, the assets purchased are recorded as plant and equipment.
NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONCLUDED)

Maximum Property Tax Rates

State statute sets maximum property tax rates for the City of Coeur d'Alene. The City cannot certify a budget request to finance the ad valorem portion of its annual budget that has a dollar amount that exceeds 3% of the dollar amount of ad valorem taxes certified for its annual budget during the last year in which a levy was made. The levy rate for the City of Coeur d'Alene for the 2013-14 Fiscal year were as follows: police retirement - .000053, library fund - .000416, general obligation bonds .000400 and general fund -.005869.

Property Tax Calendar

Property taxes are levied each November based on the assessed value of property as listed on the previous September tax rolls. Assessed values are an approximation of market value. The County Assessor establishes assessed values. Property tax payments are due in one-half installments in December and June. Property taxes become a lien on the property when it is levied.

Deficit Fund Balances

Deficit fund balances as of September 30, 2014 included debt service funds LID #145 for ($53,956) and LID #149 for ($59,864), self-insurance fund for ($54,894), and capital projects fund Levee Certification for ($12,088).

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 2: CASH AND INVESTMENTS

General:

State statutes authorize the City's investments and deposits. The City is authorized to invest in demand deposits, savings accounts, U.S. Government obligations and its agencies, obligations of Idaho and its agencies, fully collateralized repurchase agreements, prime domestic commercial paper, prime domestic bankers acceptances, bonds, debentures or notes of any corporation organized, controlled and operating within the U.S. which have at their purchase an “A” rating or higher, government pool and money market funds consisting of any of these securities listed. No violations of these categories have occurred during the year.

Custodial credit risk:

Custodial credit risk is the risk that in the event of a failure of a financial institution, the City’s deposits and investments may not be returned to it. The City does not have a deposit policy for custodial credit risk. The carrying amount of the City's deposits and investments is $31,762,488 and the bank balance is $32,999,801. As of September 30, 2014, the City’s deposits and investments were exposed to custodial credit risk as follows:

City of Coeur d'Alene, Idaho
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2014

NOTE 2: CASH AND INVESTMENTS (CONTINUED)

Credit risk:

Credit risk is the risk that a debtor will not fulfill its obligations. All of the above securities registered in
the City's name carry a rating of AAA from Moody's, and Standard and Poor's. The Idaho State
Investment Pool does not have an established credit rating, but invests in entities with a minimum
credit rating of "A" as stipulated by Idaho code.

Interest rate risk and concentration of credit risk:

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an
investment. Concentration of credit risk as defined by GASB exists when more than 5% of an
investment portfolio is allocated to one security. As of September 30, 2014, the City had the following
investments (and associated maturities) in its internal investment portfolio:

<table>
<thead>
<tr>
<th>Investment</th>
<th>Fair Value &amp; Carrying Amount</th>
<th>Less than 1 year</th>
<th>1-2 years</th>
<th>2-5 years</th>
<th>6-10 years</th>

Investments are presented in the Financial Statements as follows:

- Governmental activities: $1,698,756
- Police retirement pension trust fund: 1,245,068
- Total: $2,943,824

The City does not have a policy for interest rate risk or concentration of credit risk, but does manage the portfolio to preserve the principal value.

Since all the City’s cash needs cannot be anticipated, the above securities are traded in active and secondary or resale markets.

**Fair value:**

The securities registered in the City’s name were purchased at a cost of $3,008,510. The gain of $91,098 (the difference between cost and fair value) has been recognized in the financial statements as investment income. The current year gain was $115,098.

The City’s investments in 2a-7-like pools are valued based upon the value of pool shares. The City invests in one 2a-7-like pool, the Idaho State Investment Pool. The advisory board of the Idaho State Investment Pool is composed of members appointed pursuant to the requirements of the Public Funds Investment Act. The State Investment Pool is duly chartered and administered by the State Treasurer’s office and consists of US Treasury bills and notes, collateralized certificates of deposit and repurchase agreements.

The balances that the City has in the State Investment Pool are carried at its fair market value of $16,007,503. The City’s portion of the State Investment Pool had an unrealized gain of $20,783 as of September 30, 2014, which has been recognized in the financial statements.

The City considers funds held in the State Investment Pool to be cash equivalents, as the average maturity of the underlying securities is less than 90 days, and the City can liquidate the account at any time.
NOTE 3: ACCOUNTS RECEIVABLE

**Governmental activities:**

Accounts receivable consist of the following as of September 30, 2014:

<table>
<thead>
<tr>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Franchise and utility receivables</td>
<td>$604,928</td>
</tr>
<tr>
<td>Miscellaneous receivable</td>
<td>13,901</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>$618,829</strong></td>
</tr>
</tbody>
</table>

**Business-type activities:**

Accounts receivable consist of the following as of September 30, 2014:

<table>
<thead>
<tr>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Amounts due from customers</td>
<td>$2,655,548</td>

<tr>
<td>Less allowance for uncollectible accounts</td>
<td>(8,290)</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>$2,647,258</strong></td>
</tr>
</tbody>
</table>

NOTE 4: SPECIAL ASSESSMENTS RECEIVABLE

Special assessments receivable from benefited property owners of public improvements consist of the following as of September 30, 2014 and are recorded in the debt service fund and wastewater fund:

**Governmental activities:**

Deferred principal amounts not currently due, but due at a future date

$137,047

**Business-type activities:**

Deferred principal amounts not currently due, but due at a future date

$123,681

Installment payments of principal and interest due from property owners are billed annually.
NOTE 5: CAPITAL ASSETS

Capital assets activity for the year ended September 30, 2014 is as follows:

NOTE 7: BONDS AND LEASES PAYABLE

The City's long-term obligations at year-end consist of the following:

Revenue bonds payable from the wastewater fund at September 30, 2014, are composed of the following issues:

In December of 2004, the City issued $3,560,000 of revenue bonds for a current refunding of a 1995 Sewer revenue bond in the amount of $3,679,369. The refunding was undertaken to reduce total future debt service payments. The total debt service cash flow requirements, including interest of the refunding bonds exceeds that of the old bonds in the amount of $7,727. This would assume that all payments were made as scheduled to maturity. In addition, the "economic gain" resulting from the transaction amounted to $50,074. The "economic gain" is defined as the difference between the present value of the old debt service requirements and the present value of the new debt service requirements, discounted at the effective interest rate of the new debt taking into account amounts of additional cash paid at the time of the refunding.

In December of 2007, the City of Coeur d'Alene issued $15,000,000 of sewer revenue bonds. This obligation was issued for the purpose of paying a portion of the cost of construction and installation of additions and betterments to the sewer system of the City. The Series 2007 Bonds were sold to the State of Idaho Department of Environmental Quality at an aggregate price plus accrued interest. On December 20, 2012, the City of Coeur d'Alene entered into an agreement with the Idaho Bond Bank for an Authority loan to be used to refund the City’s 2007 revenue bonds.

On December 15, 2009, the City entered into a loan agreement with the State of Idaho, Department of Environmental Quality for an amount not to exceed $13,000,000 at a .5% interest rate to be repaid in biannual installments over 20 years. The State of Idaho is authorized by Title 39, Chapter 36, Idaho Code, to make loans from the Wastewater Treatment Facility Loan Account to assist municipalities in the construction of wastewater treatment facilities. The loan to the City of Coeur d’Alene is for a wastewater treatment plant upgrade. The upgrade is being driven by the necessity to meet changing National Pollutant Discharge Elimination System discharge limits. The upgrade will add a new sludge digester, a digester control building, a digester handling building, an administration/lab building and a maintenance shop building. On March 13, 2013, this loan was closed out and converted to Sewer Revenue Bond, Series 2013, with a principal amount owing of $12,257,859. The City pledges income derived on the acquired or constructed assets to pay debt service.

On May 30, 2013, the City entered into a loan agreement with the State of Idaho, Department of Environmental Quality for an amount not to exceed $8,670,367 at a 2% interest rate to be repaid in biannual installments over 20 years. The State of Idaho is authorized by Title 30, Chapter 36, Idaho Code, to make loans from the Wastewater Treatment Facility Loan Account to assist municipalities in the construction of wastewater treatment facilities. The loan to the City of Coeur d'Alene is for a new membrane filtration equipment building. The upgrade will add new mixing aeration and membrane tanks, new secondary effluent transfer pumping station, modifications to chemical systems center and installation of owner-purchased submerged membrane filtration system. At September 30, 2014, the City had drawn down $8,145,033 from this loan. The loan is in the process of being closed out; therefore an amortization schedule has not yet been provided to the City. The City has estimated the current-potion of long-term debt on this obligation at September 30, 2014.

The City pledges income derived on the acquired or constructed assets to pay debt service.

Capital Leases – The City of Coeur d’Alene entered into a real estate purchase and sale agreement with Fernan Lake Preservation, LLC on March 10, 2011 to purchase real estate to be used as parkland. The total purchase price of the real property was $462,500. The City paid $150,000 at closing. The balance of the purchase price, $312,500 is to be paid in five annual payments of $62,500. Annual payments are payable on or before October 15, beginning with the first payment on October 15, 2011.

The City of Coeur d’Alene also entered into a real estate purchase and sale agreement with the Coeur d’Alene Aerie No.486, Fraternal Order of Eagles Inc. on March 20, 2012, to purchase real estate to be used as parkland. The total purchase price of the real property was $440,000. The City paid $180,000 at closing. The balance of the purchase price, $260,000 is to be paid in five annual payments of $52,000. The annual payments are due on or before July 6, beginning with the first payment that was made on July 6, 2012.

Neither lease has a stated interest cost, the imputed interest rate is immaterial to the financial statements and has not been recognized.

The principal purposes for the transfer of funds from the enterprise funds to the general fund are to cover the administration costs of operating the City's utility division.

NOTE 9: SELF-INSURANCE

The City is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; and errors or omissions. During the fiscal year ended September 30, 1988, the City established a self-insurance program. An insurance fund (special revenue fund) has been set up to account for property tax revenues levied for this purpose and to record transfers from other funds to meet the insurance needs of the City. The insurance fund is responsible for paying claim settlements for all funds of the City, except for the enterprise funds. In addition, it pays insurance premiums for certain insurance policies which the City has chosen to continue. Under the program, the City has chosen to self-insure for all potential claims with the exception of auto liability and property insurance.

In September of 2014 the City Council voted to discontinue the City's self-insurance program and to purchase insurance from the Idaho Counties Reciprocal Management Program (ICRMP). ICRMP is an insurance pool which serves all public entities in Idaho through provision of property, general liability (employee torts), auto liability and physical damages, and public officials' insurance (errors and omissions). ICRMP provides loss prevention training to enable its subscribers to minimize their exposure to loss through funds to pay premiums and settlements.
NOTE 9: SELF-INSURANCE (CONCLUDED)

The City also participates in the Idaho State Insurance Fund. This statewide program provides coverage for workers’ compensation claims. The City is charged premiums by a rating method the program uses. This rating method is based on a per employee job risk basis. After the end of every year, the City is audited, and based on their claims throughout the year, can be eligible for a refund. If the usage was excessive throughout the year, the Insurance Fund increases the employee ratings where the use was excessive, causing the rates to increase for the following year. In the past the City has received refunds on a regular basis. The premiums for this program are budgeted directly through each department.

The insurance fund’s revenues come from charges to other funds, property tax revenues and interest earned. Expenditures made from the insurance fund include direct costs and related costs for risk management, direct costs and related costs for the preparation, investigation, adjusting, defending, and settling of claims and/or lawsuits filed against the City.

A liability for a claim is established if information indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

Health Insurance

Eligible employees of the City of Coeur d’Alene are insured for health care through Group Health - Options Health Care. The risks associated with employees on the Options Health Care are covered by commercial insurance purchased from independent third parties. The amounts of settlements did not exceed insurance coverage for each of the past three fiscal years.

There were no significant reductions in insurance coverage from coverage in the prior year.

NOTE 10: CONTINGENCIES

Intergovernmental Grants – The City has received several federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to grantor agencies for expenditures disallowed under the terms of the grant. Based upon prior experience, City management believes such disallowances, if any, will be immaterial.

Litigation – The City is a defendant in various legal proceedings arising in connection with its operations. Several legal matters exist at September 30, 2014, which are in various stages of discovery and proceedings. Certain of these matters involve claimed amounts, which are material to the City’s basic financial statements. Claims subject to Idaho law are limited to a statutory maximum of $500,000. Claims subject to federal law are not limited. The City intends to vigorously defend itself in these pending actions. In accordance with the applicable accounting guidelines, management has recognized an estimated loss only for those matters which it has deemed an unfavorable outcome is probable and the amount of loss is reasonably estimable.

(Continued)
NOTE 11: SEGMENT INFORMATION FOR ENTERPRISE FUNDS

The government issued revenue bonds to finance its wastewater department. Investors in the revenue bonds rely solely on the revenue generated by the individual activities for repayment.

NOTE 12: FUND BALANCE CLASSIFICATIONS

The City has adopted GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. This Statement establishes criteria for classifying governmental fund balances into specifically defined classifications. Classifications are hierarchical and are based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in the funds may be spent. Application of the Statement requires the City to classify and report amounts in the appropriate fund balance classifications. The City's accounting and finance policies are used to interpret the nature and/or requirements of the funds and their corresponding assignment of non-spendable, restricted, committed, assigned, or unassigned.

The City reports the following classifications:

Restricted Fund Balance — Restricted fund balances are restricted when constraints placed on the use of resources are either: (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation. Restrictions are placed on fund balances when legally enforceable legislation establishes a specific purpose for the funds. Legal enforceability means that the City can be compelled by an external party (e.g., citizens, public interest groups, the judiciary) to use resources created by enabling legislation only for the purposes specified by the legislation.

Committed Fund Balance — Committed fund balances are amounts that can only be used for specific purposes as a result of constraints imposed by the City Council. Amounts in the committed fund balance classification may be used for other purposes with appropriate due process by the City Council. Committed fund balances differ from restricted balances because the constraints on their use do not come from outside parties, constitutional provisions, or enabling legislation.

Assigned Fund Balance — Assigned fund balances are amounts that are constrained by the City's intent to be used for specific purposes, but are neither restricted nor committed. Assigned fund balances do not have to be made by the City Council, they are more easily imposed and removed and they may be assigned for specific purposes even after the City's year end.
## NOTE 12: FUND BALANCE CLASSIFICATIONS (CONCLUDED)

Amounts for specific purposes by fund and fund balance classifications for the year ended September 30, 2014, are as follows:

NOTE 13: DEFINED BENEFIT PENSION PLAN

The Public Employee Retirement System of Idaho (PERSI) is the administrator of a cost sharing multiple-employer public retirement system that was created by the Idaho State Legislature. It is a defined benefit plan requiring that both the member and the employer contribute. The plan provides benefits based on members’ years of service, age and compensation. In addition, benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Designed as a mandatory system for eligible state and school district employees, the legislation provided for other political subdivisions to participate by contractual agreement with PERSI. Financial reports for the plan are available from PERSI upon request. That report may be obtained by writing to PERSI, 607 North 8th Street, Boise, Idaho 83702.

After 5 years of credited service, members become fully vested in retirement benefits earned to date. Members are eligible for retirement benefits upon attainment of the ages specified for their employment classification. Effective June 30, 2000, the annual service retirement allowance for each month of credited service is 2.0% (2.3% police/firefighter) of the average monthly salary for the highest consecutive forty-two months.

For the period October 1, 2013, through September 30, 2014, the required contribution rate for general employees was 11.32% and 6.79% of covered payroll for the City of Coeur d'Alene and its employees, respectively, and 11.66% and 8.36% for police/firefighter employees. The City of Coeur d'Alene's contributions required and paid were $3,132,777, $2,949,812 and $2,884,713 for the three years ended September 30, 2014, 2013, and 2012 respectively.

Single-Employer Defined Benefit Pension Plan

Plan Description: The City of Coeur d'Alene maintains a single-employer defined benefit pension plan, the police retirement fund. Title 50, Chapter 15, of the Idaho Code allowed the City of Coeur d'Alene to create a policemen's retirement fund. Title 2, Chapter 2.80, of the City of Coeur d'Alene Code, created the police retirement fund. A Board of police retirement Commissioners consisting of the Council and three members of the Police Department is the administrator of the fund and has the authority to establish and amend benefits and contributions. The police retirement fund is responsible for the payment of benefits to police officers who were hired before April 12, 1967 and their eligible surviving spouses. Funding for these benefits come from two sources:

(1) Investment earnings on the fund
(2) Property taxes

The City's police retirement fund is a closed group. No new members are permitted and no active members remained in the fund as of May 31, 1991. All members have retired and all benefit obligations except for future cost-of-living increases have been determined. There are three members and four spouses currently receiving benefits. There are no terminated members entitled to but not yet receiving benefits. Separate financial statements are not issued for the police retirement fund.

Police officers may retire after 25 years of service or at attainment of age 60. The amount of annual pension is 50% of the average annual salary in the five highest salary years out of the ten years of service preceding retirement.
NOTE 13: DEFINED BENEFIT PENSION PLAN (CONTINUED)

Single-Employer Defined Benefit Pension Plan (Continued)

There is no age and service requirement for disability retirement. Disabled members are paid an annual pension equal to 50% of the annual salary attached to the rank held by the disabled member, payable if the disablement was wholly attributable to service. If the disablement was only partially attributable to service, the benefit is proportionately reduced.

If a retired member has been married for at least five years prior to death, a pension of 75% of the retirement benefit to which he was entitled at the time of his death is payable to his widow until her death or remarriage. This benefit is increased to the full retirement benefit if there are minor children.

The police retirement fund is accounted for on a flow of economic resources measurement focus and uses the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

The fair value of investments is determined by the trust department of the bank that administers the funds investment portfolio. Publicly traded assets are valued in accordance with market quotations. Assets which are not publicly traded may reflect values from other external sources or special valuations prepared by the trust department.

Funding Policy: The funding policy and cost-of-living adjustments are provided to members and beneficiaries at the discretion of the Board of police retirement fund Commissioners. The costs of administering the plan are financed by investment earnings. The City's latest actuarial valuation was dated September 30, 2013. The City's contributions to the fund are set to amortize the fund's benefit liabilities over the period ending September 30, 2027. This represents a 30 year amortization of the fund's unfunded actuarial liability. The actuary recommends a minimum yearly contribution of $152,000 to adequately satisfy future expected cash flow requirements. The fund's asset balance is not expected to decrease for at least the next ten years. These calculations are based on the actuarial assumptions, including annual post-retirement benefits increases of 3% and investment returns of 4.75%. Any adverse future experience of the fund will require an increase in the minimum recommended contribution of $152,000.

There are no long-term contracts for contributions to the plan or any legally required reserves. Investments at year end included cash equivalents of $133,869 and U.S. Government issues of $1,245,068. The actuarial value of assets is fair market value.

For fiscal years beginning after June 15, 1996, new GASB reporting standards are required for defined benefit pension plans reporting and disclosures (Statement No. 25). The requirements for Statement No. 25 include certain supplementary information to the financial statements. These include:

(1) A Schedule of Funding Progress, and

(2) A Schedule of Employer Contributions

The Schedule of Funding Progress compares the amount of unfunded actuarial liability (UAL) from year to year and measures the progress of the employer's contributions in reducing the amount. Under most acceptable funding methods there is a UAAL. The required schedule of employer contributions compares the employer contributions required based on the actuarial required contribution, or ARC, with those employer contributions actually made.
NOTE 13: DEFINED BENEFIT PENSION PLAN (CONCLUDED)

Funding Policy (Continued)

GASB Statement No. 27 is effective for fiscal years beginning after June 15, 1997, and is required for pension accounting by state and local government employers. The disclosures include the measurement of an annual pension cost (APC). For the fund, the APC is equal to the employer's annual required contributions (ARC), as actuarially determined by the funding methods and assumptions for pension benefits used for GASB purposes. If the City is required to make a contribution (APC) and does not make a contribution equal to the ARC, then a Net Pension Obligation (NPO) account must be established and the APC will reflect adjustments made to the NPO account, as well as the ARC. Since the City's actual contribution will almost always be slightly different from its target contribution, there will always be a small NPO and a small difference between the ARC and the APC.

For GASB purposes, the ARC must be calculated based on certain parameters required for disclosure purposes. The actuarial has computed the ARC using the entry age normal cost method. Under this method the projected benefits are allocated on a level basis as a percentage of salary over the earnings of each individual between entry age and assumed exit age. The amount allocated to each year is called the normal cost and the portion of the actuarial present value of all benefits not provided for by future normal cost payments is called the actuarial accrued liability. Since all members have already retired, the amount of the annual normal cost is zero. The unfunded actuarial accrued liability (UAAL) is the actuarial accrued liability minus the actuarial value of the fund's assets.

For GASB reporting purposes, Table 1 presents the ARC as of the valuation date, assuming the UAL is amortized as a level dollar amount over 14.2 years. This is within the maximum period allowed under the GASB reporting rules. The amortization period is open.

The UAL and the percentage funded by assets are shown in the required supplementary information, the schedule of funding progress. Table 1 discloses the annual pension costs; percentage of annual pension cost contributed and NPO for the year ended September 30, 2013. Only one year of information is available.

*Interest computation assumes end-of-year payment although actual payments will take place during the year. The ARC was calculated taking the timing of the actual payment schedule into account.

(Continued)
NOTE 14: POST EMPLOYMENT HEALTH PLANS

Plan Description – City of Coeur d’Alene operates a single – employer retiree benefit plan that provides post-employment medical plans upon retirement from active service. To be eligible for the City’s retiree group medical plan, a retiree must exceed 90; calculated as their age plus service. Public Safety officers covered under PERSI are eligible for retirement when their age plus service exceeds 80. Retirees are covered until they are eligible for Medicare or Medicaid; Death; or the employee or spouse becomes employed elsewhere and medical benefits are available.

Funding Policy – The City has not established a fund to supplement the costs for the net OPEB obligation. Current year’s premiums are capped at $500 per month. The City’s funding policy is based on a pay-as-you-go method.

Annual OPEB Cost and Net OPEB Obligation – The City’s annual other post-employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the City’s annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the City’s net OPEB obligation:

- Annual required contribution: $155,180
- Interest on net OPEB obligation: 46,901
- Adjustment to annual required contribution: (73,283)
- Annual OPEB cost (expense): 128,798
- Contributions made: (59,670)
- Increase in net OPEB obligation: 69,128
- Net OPEB obligation – beginning of year: 1,172,532
- Net OPEB obligation – end of year: $1,241,660

The City’s annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2014, and the four preceding years were as follows:

<table>

Funded Status and Funding Progress – As of September 30, 2013, the most recent actuarial valuation date, the plan was 0 percent funded. The actuarial accrued liability for benefits was $1,027,489 and the actuarial value of assets was $0, resulting in an unfunded actuarial accrued liability (UAAL) of $1,027,489.

(Continued)
NOTE 14: POST EMPLOYMENT HEALTH PLANS (CONCLUDED)

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions – Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the September 30, 2013, actuarial valuation, the most recent actuarial valuation date, the Projected Unit Credit (PUC) actuarial cost method was used. The actuarial assumptions used to calculate the funding results are as follows:

Investment Return (Interest Rate) – Pre- and post-retirement interest rates were assumed at 5.25% per year.

- Medical Inflation Rate – Medical cap of $500 per month will increase at a rate of 10% reduced by .5% per year until a level 5%.
- Expenses – No assumption of asset expenses were made.
- Mortality Rates – RP2000 Unisex Mortality Table.
- Turnover Rates – T2 Turnover Table.
- Disability Rates – None assumed.
- Retirement Rates – Retirement date will occur when an employee becomes eligible under the rule of 80 or 90 but not before age 55.
- Spouse – Assume same age as employee and married at time of retirement.
- Utilization Probability – 20% of retired employees will be eligible for the plan’s benefits upon the City Council’s discretion.
- Probability of re-employment after retirement – None.
- Actuarial Value of Assets – Same as market value of assets.

Gains/losses are amortized using a closed level dollar method over a period of 15 years.
NOTE 15: LAWSUIT

In October 2011, a judgment was entered in a lawsuit that arose from the City’s discipline and termination of a police lieutenant. The case went to trial in federal court and resulted in a jury verdict of $3.7 million against the City. The City recorded the $3,515,674 liability as an expense in fiscal year 2011-12. The City made two payments of $1,850,000 on December 12, 2013 and January 2, 2014 to settle this judgment.

NOTE 16: FIREFIGHTER'S SOCIAL SECURITY REFUNDS

State Controller, Donna Jones, serving as the State Social Security Administrator issued a Notice of Referendum for all eligible firefighter members of the Public Employee Retirement System of Idaho (PERSI). In July of 2012, a vote took place which allowed the members of the City’s Fire Union to opt out of the Social Security system. The City received social security taxes paid by the members of the union and the portion paid by the City by filing 941X forms back to 2007. The City disbursed the employee portion to the employee and entered into an agreement to place the refunded employer’s portion into individual employee’s PERSI Choice 401K accounts.

NOTE 17: PRIOR PERIOD ADJUSTMENT

Beginning net position for the primary government was increased by a net $509,697 for the following items:

In fiscal 2012-2013, the City recorded approximately $9.8 million in donated construction costs to the City related to the McEuen Park project. As of September 30, 2013, the project was ongoing and therefore, the City recorded the donated assets as construction in progress in its governmental funds. In fiscal 2014, the project was completed and the City allocated a net $1,961,677 of these costs to the non-major enterprise funds, resulting in a prior period adjustment reducing governmental activities net position with a corresponding increase to enterprise funds net position.

In addition, the City identified $509,697 in capital costs which were expensed in the prior year and should have been capitalized for GASB 34 purposes in the prior year. The effect of the prior period adjustment on net position in the governmental activities was to increase net position by $509,697.

The combined net effect of these prior period adjustments is an increase in net position for the primary government of $509,697.

NOTE 18: COMPONENT UNIT DISCLOSURES

As disclosed in Note 1, the Lake City Development Corporation meets the criteria for discrete presentation in the City’s financial statements as a component unit. The following paragraphs describe significant transactions between the two entities and provide relevant disclosures related to the Agency.
NOTE 18: COMPONENT UNIT DISCLOSURES (CONTINUED)

Agency Cash and Cash Equivalents

Custodial credit risk is the risk that in the event of a bank failure, the Agency's deposits may not be returned to it. The Agency does not have a written policy for custodial credit risk, but has charged management with ensuring the Agency's exposure to custodial credit risk is minimal. The carrying amount of the Agency's deposits is $7,923,479 and the bank balance is $7,925,201. As of September 30, 2014, the Agency's bank balance was not exposed to custodial credit risk. Details are as follows:

Amount insured by FDIC $7,925,201

The Agency maintains cash deposits with four local banks in order to mitigate the financial impact of potential bank failure.

State statutes authorize the Agency’s investments. The Agency is authorized to invest in U.S. Government obligations and its agencies, obligations of Idaho and its agencies, fully collateralized repurchase agreements, prime domestic commercial paper, prime domestic bankers acceptances, and government pool and money market funds consisting of any of these securities.

Capital Assets

Activity for Lake City Development Corporation’s capital assets for the fiscal year ended September 30, 2014, was as follows:

During the fiscal year, $55,030 in depreciation expense was charged to the property rental function.
NOTE 18: COMPONENT UNIT DISCLOSURES (CONTINUED)

Agency Notes Payable

Library Site:

On April 23, 2001, the Agency entered into an agreement with the Coeur d'Alene Public Library Foundation, Inc., regarding property purchased by the Foundation from Ed D. and Susan T. Jameson, and Ray C. and Doris M. Mobberley, for the purpose of constructing a new library facility. The Library Foundation made a down payment of $250,000 and entered into two separate promissory notes with the Jamesons and the Mobberleys in the amounts of $346,500 and $553,500, respectively, as consideration for the property.

On March 31, 2003, the Agency refinanced these notes payable through Washington Trust Bank. The principal amount refinanced was $910,719. Repayment terms were monthly payments due the first of each month, bearing interest at the rate of 4.15%. A balloon payment in the amount of $754,863 was due April 1, 2008.

On April 1, 2008, in lieu of remitting the balloon payment due, the Agency refinanced the balance through Washington Trust Bank. The total amount refinanced was $752,047. Repayment terms are monthly payments due the first of each month, bearing interest at the rate of 4.00%. A balloon payment in the amount of $555,676 is due April 1, 2013.

On April 1, 2013, in lieu of remitting the balloon payment due, the Agency refinanced the balance through Washington Trust Bank. The total amount refinanced was $555,676. Repayment terms are monthly payments due the first of each month, bearing interest at the rate of 2.65%. The annual requirement to retire the debt is as follows:

Mill River Project fixed rate bond:

On April 22, 2005, the Agency received a Taxable Revenue Allocation Area Bond. The Agency was approved to borrow up to $4,000,000. This financing was used on the Mill River Development project. The bond had a maturity date of March 1, 2017. Unscheduled principal payments were being made with any tax increment revenue not required for the scheduled interest payments for the year of income. The initial effective interest rate at closing was equal to 30-day LIBOR rate plus 250 basis points. The interest rate was reset as of the first business day of each month at a rate equal to the 30-day LIBOR rate plus 250 basis points. Interest was calculated on an actual/360-day basis. Interest was due semiannually beginning September 1, 2005. As of September 30, 2007, the Agency had taken out $3,799,931 of the available $4,000,000.

On June 26, 2008, the Agency refinanced the Taxable Revenue Allocation Area Bond with Washington Trust Bank. The principal amount of the refinancing was $3,750,000, for the term of ten years, at a fixed interest rate of 4.35%. The first payment was due on August 15, 2008, and subsequent semi-annual payments due equal to the greater of: 1) at least 75% of the incremental portion of taxes exceeding the amount of taxes collected in the base year form the Mill River Revenue Allocation Area; or 2) the payment based on a 15 year amortization of semiannual payments of the original principal balance and interest rate of the bond. The debt was retired in the current fiscal year.
NOTE 18: COMPONENT UNIT DISCLOSURES (CONTINUED)

Agency Notes Payable (Continued)

Midtown:

On July 28, 2009, the Agency entered into a $712,435 debt obligation with Mountain West Bank to assist in financing the $1,654,000 of Agency approved public improvements related to the Midtown Placemaking project. The $712,435 Mountain West Bank Midtown debt obligation is amortized over ten years with a 4.80% interest rate. Tax increment proceeds generated from the Lake District will be utilized to repay both principal and interest associated with the Mountain West Bank Midtown obligation. The Agency’s Midtown Placemaking project has been a long-term strategic goal designed to refurbish the existing public-realm infrastructure, as well as create a “place” to spark private sector investment. The City of Coeur d’Alene administered Midtown Placemaking project was completed on time and under budget and was officially dedicated on October 22, 2009. The annual requirements to retire the debt are as follows:

$ 393,686 $ 49,064 $ 442,750

Bond Payable – Washington Trust:

On August 25, 2011, the Agency received a Revenue Allocation Bond. The Agency was approved to borrow up to $16,700,000. This financing is being used on Lake District Redevelopment Projects. Maturity was set for August 1, 2021 and the interest rate was set at 3.26% per annum for the first five years. The interest rate is to reset after five years subject to an approved formula as included in the agreement. Outstanding balances and accrued interest are due in semi-annual payments of $1,040,000 commencing February 1, 2012. Bond security is provided in the form of a subordinate interest in Lake District Revenue. The future annual debt service requirements are at this point unknown, as the Agency has not yet fully drawn down all available proceeds from this debt. The Agency must however make two semiannual payments totaling $2,080,000 annually, until any outstanding balance and accrued interest is paid off.

City of Coeur d’Alene, Idaho

Explanation of
Nonmajor Governmental Funds
Special Revenue Funds

Special revenue funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes. The following are the City’s special revenue funds:

**Library Fund:** To administer expenditures for the purpose of providing a library to the citizens of the City of Coeur d’Alene. The primary revenue source for this fund is property taxes.

**Cemetery Fund:** To administer expenditures for the purpose of providing cemetery lots, niches, and openings and closings. The primary revenue sources for this fund are sales of cemetery lots and niches, and a transfer of interest from the cemetery perpetual care trust fund.

**Annexation Fees Fund:** To administer specific capital expenditures approved by the City Council. The only revenue sources of this fund are annexation fees charged when a new subdivision is annexed into the City and interest earnings.

**Impact Fees Fund:** Developmental impact fees are charged on new construction. The revenue generated from these fees will be used for capital improvements for Parks, Police, Fire and Streets.

**Parks Capital Improvements Fund:** To administer expenditures for the purpose of developing new parkland for the citizens of the City of Coeur d’Alene. The primary revenue source for this fund is grants, impact fees, park fees, parking and boat launch user fees and transfers from the general fund.

**Cemetery Perpetual Care Fund:** To account for funds set aside to be used to maintain the City’s cemeteries into perpetuity. Funding for this fund comes from interest earnings and 30% of the funds generated from cemetery lot sales.

**Reforestation Fund:** To account for funds collected for the purpose of replacing trees in the right of ways and planting trees in the right of ways of new subdivisions or new construction.

**Art Commission Fund:** To account for revenues and expenditures of the Arts Commission for providing summer art programs and various community art awards.

**Jewett House Fund:** To account for donations received for the operation and maintenance of the Jewett House, an estate donated to the City to be used for senior citizen activities.

**Public Art Fund:** To account for funds received from construction projects of the City of Coeur d’Alene and contributions from Lake City Development Corporation to be used for the purchase and maintenance of public art.

Debt service funds are established to finance and account for the payments of interest and principal on outstanding bonded debt of the City, exclusive of the bonded debt in the enterprise funds. These bonds relate to special assessment funds created to service the related debt to finance past construction of local improvement districts (LIDs).

**LID #129/132:** Accounts for the accumulation of resources and payment of special assessment bond principal and interest from special assessment levies created for the purpose of installing sanitary sewers in Hoffman, Sleepy Hollow, Forest Park, Pinegrove Park and Sunrise Terrace Subdivisions in 1998.

**LID #130/135/136:** Accounts for the accumulation of resources and payment of special assessment bond principal and interest from special assessment levies created for the purpose of paving, installing curbs, sidewalks and for beautification of Lakeside Avenue and Ramsey Road in 1996. LID #136 was created for the purchase of the Industrial Park Water System in 1996.

**LID #145:** Accounts for the accumulation of resources and payment of special assessment bond principal and interest from special assessment levies created for the purpose of widening, paving, and installing curbs and sidewalks on Government Way from Appleway Avenue to Dalton Avenue.

**LID #149:** Accounts for the accumulation of resources and payments of special assessment bond principal and interest from special assessment levies created for the purpose of making major street improvements and beautification to 4th Street Midtown.

**LID #150:** Accounts for the accumulation of resources and payment of special assessment bond principal and interest from special assessment levies created for the purpose of acquisition, construction and installation of improvements to water and sewer mains on Government Way.

**LID Guarantee:** Accounts for the additional security for the LID Bonds. This is established by ordinance.

City of Coeur d’Alene, Idaho

Explanation of
Capital Project Funds

*Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.*

15th Street at Cherry Hill: To administer expenditures for the purpose of providing utilities and access to City owned property at Cherry Hill Park.

Government Way – Hanley to Prairie: To administer expenditures for the purpose of reconstructing and widening of Government Way from Hanley Ave. to Prairie.

15th Street – Lunceford to Dalton: To administer expenditures for the purpose of widening 15th Street including a bike lane, curbs and gutters.

15th Harrison to Best: To administer expenditures for the purpose of reconstruction and widening of 15th Street from Harrison Avenue to Best Avenue.

Signal at 3rd and Harrison: To administer expenditures for the purpose of reconstruction of the intersection at 3rd Street and Harrison and replacing the traffic light.

Front Street Project: To administer expenditures for the purpose of modifications to the City’s right of way, previously Front Street, from 2nd to 3rd Street.

Kathleen Avenue Widening: To administer expenditures for the purpose of property acquisition and widening Kathleen Avenue to 5 lanes from Government Way to Highway 95.

Levee Certification: To administer the expenditures for the purpose of making required improvements to the City of Coeur d’Alene floodworks certification.

</table>
The enterprise funds are used to account for the City’s wastewater property management, street lighting, public parking operations and stormwater management. These operations are financed and operated in a manner similar to a private business enterprise. The intent of the City is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The following are descriptions of each nonmajor enterprise fund.

**Wastewater Property Management Fund:** To account for funds being held for building maintenance expenses for the Harbor Center building, which is currently being leased by the University of Idaho.

**Street Lighting Utility Fund:** To account for the provision of street lighting services to the residents of the City. All activities necessary to provide such services are accounted for in this fund, including (but not limited to) administration, operations and maintenance.

**Public Parking Lot Fund:** To account for the provision of downtown parking to the residents and visitors of the City. All activities necessary to provide such services are accounted for in this fund, including (but not limited to) operations and maintenance.

**Stormwater Management:** To account for the provision of drainage management. All activities necessary to provide such services are accounted for in this fund including (but not limited to) administration, operations and maintenance.

SINGLE AUDIT REPORT
REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITOR’S REPORT

To the Honorable Mayor and City Council
City of Coeur d’Alene
Coeur d’Alene, ID 83814

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Coeur d’Alene as of and for the year ended September 30, 2014, and the related notes to the financial statements, which collectively comprise the City of Coeur d’Alene’s basic financial statements, and have issued our report thereon dated March 4, 2015.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Coeur d’Alene’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Coeur d’Alene’s internal control. Accordingly, we do not express an opinion on the effectiveness of the City’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Coeur d’Alene’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.
Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity’s internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Magnuson, McHugh & Company, P.A.

March 4, 2015
To the Honorable Mayor and City Council
City of Coeur d’Alene
Coeur d’Alene, ID 83814

Report on Compliance for Each Major Federal Program

We have audited the City of Coeur d’Alene’s compliance with the types of compliance requirements described in the U.S. Office of Management and Budget Circular A-133 Compliance Supplement that could have a direct and material effect on each of the City of Coeur d’Alene’s major federal programs for the year ended September 30, 2014. The City of Coeur d’Alene’s major federal programs are identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs.

Management’s Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contract, and grants applicable to its federal programs.

Auditor’s Responsibility

Our responsibility is to express an opinion on compliance for each of the City of Coeur d’Alene’s major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Coeur d’Alene’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City of Coeur d’Alene’s compliance.

Opinion on Each Major Federal Program

In our opinion, the City of Coeur d’Alene complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2014.
REPORT ON COMPLIANCE WITH FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133 (CONCLUDED)

Report on Internal Control over Compliance

Management of the City of Coeur d'Alene is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered City of Coeur d'Alene's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program as a basis for designing auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of City of Coeur d'Alene's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

NOTE 1: BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the City of Coeur d’Alene and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, Cost Principles for State, Local, and Indian Tribal Governments, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

Pass-through entity identifying numbers are presented where available.
