PARCEL MAP FILE KEY

Parcel ID List – All parcels outside of the city limits that may be eligible for water service are identified by a County parcel identification number available on the County website at [www.kcgov.us/parcelinformationsearch](http://www.kcgov.us/parcelinformationsearch). The corresponding parcel numbers are contained within this list and reference a parcel map page number under the Parcel Map File.

Purple Border – On any parcel map, a purple border indicates that the parcel was identified as an approved subdivision lot and is eligible for water service connection with no additional special requirements. Applicable fees are due at time of connection.

Yellow Border – On any parcel map, a yellow border indicates that the parcel abuts an existing water main outside of the city limits. These parcels are eligible for one water service connection provided that the owner(s) agree to complete a water service agreement. Applicable fees are due at time of connection.

Green Border – On any parcel map, a green border indicates that the parcel is contiguous and therefore must annex into the City prior to a service connection being granted. Once annexation is complete, the parcel is entitled to water service as with any city lot. Applicable fees are due at time of connection.
